

Hello, I'm Lena

Trainee Front-end/HTML coder

I seek an opportunity to grow professionally as a programmer. I am persistent and hardworking, focused on results. I really like to see the result of my work and I want to get into a team of like-minded people, create cool applications together, develop, and finally obtain commercial experience.

About Me

I have no commercial experience as a Front-End developer, but I believe that with determination and hard work, anything is possible.

During my four-year experience as an IT recruiter, I had the opportunity to work with clients from the United States, the Middle East, and Europe. This exposure ignited my passion for the IT industry and motivated me to pursue a career as a Front-End developer.

I completed the Junior Front-End Developer courses with honors at Main Academy from March 2021 to October 2021. The program covered HTML/CSS, JavaScript, jQuery, Bootstrap, and Photoshop in a comprehensive 140-hour curriculum.

I completed the Junior Front-End Developer courses with honors at Main Academy from March 2021 to October 2021. The program covered HTML/CSS, JavaScript, jQuery, Bootstrap, and Photoshop in a comprehensive 140-hour curriculum.

After completing the courses, I continued to study Front-End development independently, expanding my knowledge beyond what I learned in the program. I have applied this knowledge in practical projects and achieved tangible I am dedicated to continuously improving my skills and knowledge in the field. I would greatly appreciate the opportunity to complete a test task to demonstrate my abilities.

I am seeking a Trainee/Junior position where I can contribute my current skills while being open to learning anything necessary for the job.

Education and Certificates

Junior Front-End Developer Certification, Main Academy, March 2021 - October 2021, Covered topics: HTML/CSS, JavaScript, jQuery, Bootstrap, Photoshop

Kherson State Agricultural University (Management) 2010-2014
