

Hello, I'm Lena**Junior Front-end Developer**

Motivated and adaptable Junior Front-End Developer with 6 months of commercial experience and several years of course-based and self-directed learning, seeking new job opportunities. My goal is to keep learning, grow in this field, and create useful applications for companies and communities. I am eager to take on challenges, learn, and work well in a team.

**Work Experience**

Junior Frontend Developer

Rocking Tech - December 1, 2023 - July 1, 2024

During my commercial experience, I successfully worked on 5 projects, primarily focusing on frontend development with Vue 3, Sass, and JavaScript, and utilizing build tools such as Vite/Webpack. Additionally, I have gained some experience with server-side technologies including PHP (mainly for form validation), Laravel (primarily working with Blade templates, routing, populating databases, and fetching data using Axios), Docker, and MySQL.

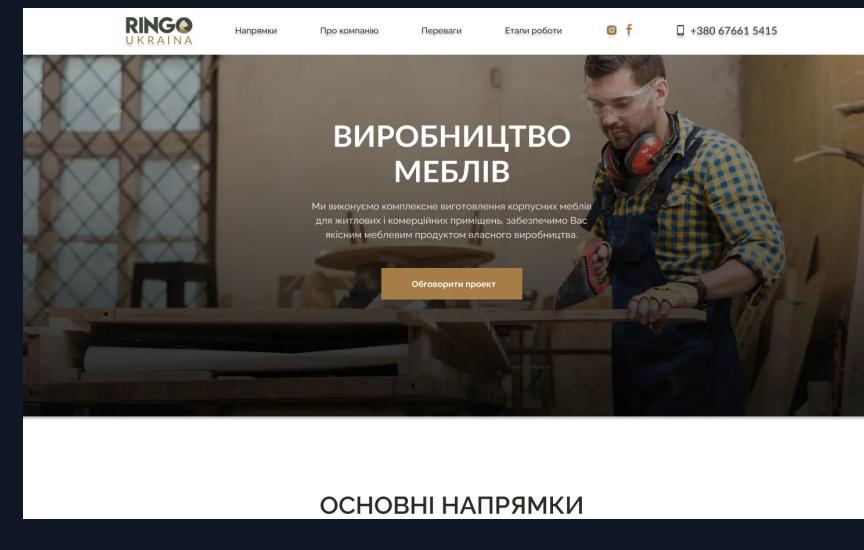

Bug fixing and troubleshooting in Vue 3 and Laravel projects, including debugging and style adjustments.
 - Enhancing codebase efficiency and maintainability through systematic code improvements.
 - Implementing client-provided designs into HTML/CSS layouts.
 - Creating adaptive layouts ensuring optimal display across devices.
 - Applying BEM methodology for structured and scalable CSS development.
 - Building reusable components using Vue 3 features like the Composition API.
 - Integrating Axios for efficient HTTP requests and API handling.
 - Developing Vue applications with Vue Router for seamless SPA navigation and state management.
 - Working with sliders, filters, and form validation (both frontend and backend).
 - Migrating projects from WordPress.

Technical Skills:

- Frontend: HTML5, CSS3 (including SCSS), JavaScript, Vue.js
- Backend: Laravel
- Build Tools: Vite, Gulp
- Version Control System: Git, GitHub
- Containerization: Docker
- API Integration: Experience with 3rd party services and APIs; proficient in using Axios for efficient HTTP requests and handling REST APIs.
- Graphic Tools: Figma
- English Language: B1 level

Training Projects**Responsive Relocation Website**

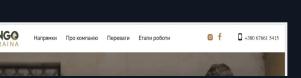

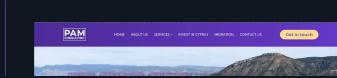

Technologies Used: Vue.js (Vue 3), Laravel, Vite, Vue Router, MySQL for data storage, integration with 3rd party services and APIs
